

As you know the world is currently going through uncharted times and no one knows for sure when things will return to normal and exactly what the new normal may look like. However, we are “Americans, not American’ts,” as I like to say, and in order to get through these times we all need to stay calm, collected, and focus on what we can do to help our country through these challenging times.

We need to use caution and ensure we follow the guidelines set out for social distancing and ensuring we are washing our hands and keeping our homes and workplaces disinfected to prevent the spread of COVID-19. We at Overton Chicago Gear have and will take all appropriate steps to ensure our employees’ safety throughout this pandemic.

Our employees also understand that Overton plays a critical role for our customers who provide essential products and services to the world and as such we will need to continue operating during the current Illinois “Shelter In Place” order. We at Overton must ensure our essential service customers are able to meet their obligations to state and federal governments as well as businesses in sectors critical to our nation’s infrastructure, knowing the devices and equipment produced will help get our country through this crisis, as well as help our military defend the country as needed.

We stand ready, willing and able to support our current customers, as well as any other essential service providers who may need help. Overton will make capacity available in machining, heat treating, and/or gear production for anyone in need of these capabilities in the essential service supply chain.

If you have parts for any essential products and require an overflow provider at this time please let us know. Overton has lathes, mills, drills, grinders, and about any other equipment needed to make parts from an inch to two meters plus in diameter. We have heat treat capabilities and gearbox build, rebuild and assembly capabilities. And last but not least, Overton has “The Team That Nobody Can Stop.” Our employees have the knowledge and skills needed to support you in any way possible, along with the desire to help our country and ensure our citizens and military have the products necessary to overcome today’s challenges. If we work together, America will persevere through these times. Overton Chicago Gear is here to “Help Make America Strong Again.”

Please contact us and let us know how we can help you with producing essential products during these trying times. We stand ready, willing and able. You can reach us at 630-543-9570.
